

Checking in with Leslie!

Dear amazing supporters,

You know, we've been in the business of rescuing, rehabbing, and finding homes for animals for what feels like forever. And every single time we match one of our dogs with their perfect forever home, we experience that magical moment all over again. It's like a breath of fresh air, a burst of joy that never gets old.

In the past few months, our incredible Two Hands Four Paws Foundation family has come together to find forever homes for not just one, not two, but NINE dogs! We are on a roll!!! And these dogs have “issues”! It's not like they are healthy Labrador puppies that anyone would take. Ours are the dogs that don't have a chance of being adopted and we do our best to give them one. We could not do it without a whole team of fosters (including a lot of our staff!!!) and amazing clients (here's looking at you Vicky R, Susan G and Debbie B!) and the extra incredible Nicole who drives all over town, does home checks, non-stop counseling, gets dogs out of the shelters for us, and follows up 24/7 to make sure the new owners have everything they need. It's all thanks to your boundless support and generosity that we've been able to make these connections happen for so many years!!!!

We also want to give a shout-out to all the veterinarians who answer my every frantic text. The general practitioners, radiologists, neurologists, cardiologists, oncologists, dermatologists and surgeons who are on my speed dial. Every one of them responds immediately when we have a request to take in a dog with a LOT of problems. All of them are available day and night to help us out when we need it. We literally could not do this without their expert skills.

With their help and your support we get to keep doing what we love; saving the animals that no one wants. And here's the best part: every single dollar you donate goes straight towards the medical needs of the dogs we rescue. Yep, you heard that right! From Frida's heart surgery to Suede's broken leg and long rehab journey...you have truly saved these dogs' lives! We are grateful for all of YOU. Please consider making a donation to our 501(c)(3), the Two Hands Four Paws Foundation, and allow us continue this life-saving mission.

Thank you from our hearts.

xxx Leslie

Your support made this possible!

Success stories continue: Rescued, Rehabbed, and now in their forever homes! ↓↓↓↓

FRIDA HAS FOUND HER FOREVER

HOME! When a rescuer contacted us about 120 dogs in a hoarding situation in some woman's home she asked if we would take one of the dogs. We responded that we would take two. So she brought us four! Frida had a life threatening heart condition and she asked if we were willing to take her in. Leslie replied, "Absolutely! I'll get her to a

cardiologist!" After raising the money through our foundation, this resilient girl went through major HEART SURGERY! Not only is her heart fixed, Frida is now happily accompanying her new family members on walks to school, receiving heaps of love. If you'd like to further support heartwarming stories like Frida's, click [here](#).

Matilda and Dr. Anna

Matilda, the resilient and sweetest 5-year-old Chihuahua also came from the hoarding situation. Born with severely luxated patellas, Matilda could not stand up or walk, so to get around she adopted a distinctive crawl. We took her to an orthopedic surgeon where she ended up having three surgeries! In between each surgery we did lots and lots of pt. As soon as she was good to go, she was adopted by our very own Dr. Anna and now lives an amazing and pampered life, fully healed, cozy, and adored by the whole household. And just between us, Anna's husband, also a veterinarian, literally carries her everywhere as he is so in love with her. And this is a man who didn't want another dog! That's how sweet she is.

Tito and Bowie

These brothers started out in the same horrible hoarding situation. The rest of their siblings didn't survive. Luckily, they were uninjured and just in need of some love...and somewhere to get their puppy energy out!! They are now happy and safe with their new owners who are so grateful for them!

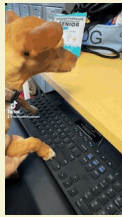

Chloe

We first met her after she had been hit by a car and would have died. She was transferred to the vet where she was in a coma and we were told chances were low

she'd survive. She not only survived, she has become the most spirited and happy angel. She underwent months of rehab after her surgery and is a little warrior. She loves life, her new home, and appreciates every second of it. All of this we were able to do thanks to you and your support.
