

Foundation Updates!

Dear amazing supporters,

It has been an incredibly busy time for the Foundation, which is both the good news and the bad news! The good news is that we have been pulling and taking in injured and homeless dogs on a level we don't normally do, as the need is so great. The bad news is that it is very expensive!!!! We need your help! In the past few months we have taken in three dogs that had been hit by cars with multiple broken bones and other injuries, a dog that was paralyzed whose owner couldn't care for her anymore, a young dog with severe arthritis whose owner (wait for it) "didn't like him" and a puppy with severely deformed front legs. We have another paralyzed one coming in, and three on the wait list who need surgery and amputations for car accident injuries. In other words we are up to our eyeballs in injured, expensive dogs!!! The great news is that we love all of them and they are all on the road to recovery. We don't often ask for help (ok, well, basically never) but right now we could really use some support! We love, love, love what we do and as I type, two of those puppies have just found their forever homes. We truly could not do this without you, our village. Please send that love, checks, cash and credit cards and read on to hear their stories. And thank you from the bottom of our hearts!!!

Warm regards,

♥ Leslie Gallagher

The 2024 Two Hands Four Paws Foundation: Success Storybook

Scooter and Magic Adopted!...TOGETHER!

Did you hear that Scooter and Magic found a home? Together? With lots of kids? On a property so big it has streams and fields?

Matilda & Dr. Anna... a dream come true!

Meet Matilda, the resilient and affectionate 5-year-old Chihuahua with a heart of gold. Born with luxated patellas, Matilda faces a unique challenge that impacts her mobility, leading her to adopt a distinctive crawl. She took the first step towards a more promising future as one knee underwent surgery thanks to our foundation, with the second one scheduled six weeks after.

Despite her physical obstacles, Matilda's spirit remains unbroken. After surgery, she was adopted by our very own Dr. Anna and now lives a vibrant life, fully healed, cozy, and loved.

Stary was adopted!

We first saw Stary's post at 1am and couldn't sleep knowing she'd be killed by 3pm that

day. So the Animal Rescue Mission rescued her and reached out to us.

Sтары, a 10-month-old puppy, was on the euthanasia list due to multiple hairline fractures, likely from being clipped by a car while on the run. Despite her injuries, she was alert and incredibly cute, though tired of doing her time.

Now, we're thrilled to share that Sтары has been adopted and lives a happy, cozy life! She's fully recovered, enjoys the companionship of other dogs, and receives all the love and mental stimulation she deserves. Sтары's story is a testament to the power of rescue and the importance of giving every animal a chance at a happy life.

**Another way
to donate!**

A green rectangular advertisement for Ralph's Community Contribution Program. At the top right is the Ralph's logo. In the center, the text "Ralph's Community Contribution Program!" is written in a bold, black, sans-serif font. Below this text is a photograph of a small, light-colored dog. To the right of the dog, there is a block of text: "Ralph's will donate to the Two Hands Four Paws Foundation every time you shop at their grocery store, supporting our mission to help animals in need of mobility assistance." Below the dog's photo are two large, white, outlined hearts. At the bottom left of the ad, it says "More info below!". At the bottom right is the logo for the Two Hands Four Paws Foundation, which includes a small graphic of a person and a dog.

Our Ralph's Community Contribution Program Number is AR833

Let's welcome our new family members (rescues) who are

Before and After!

First up...Daffodil!

Sweet Daffodil! ☐ At 14-weeks-old, and just 14-lbs, Daffodil came to Two Hands Four Paws with severely bowed front legs. Experts believe her deformity was caused by something called Puppy Carpal Laxity syndrome which was compounded by being confined in a crate that was too small, preventing her from standing up and forcing her legs to splay and bow out. But look at her now! ☐ ☐

Thanks to our dedicated team and the support from all of you, Daffodil's legs are good to go! In terms of her personality she just adores every rescue dog we have here at Two Hands Four Paws and is the definition of a social butterfly. She loves everyone and we love her right back. She plays, she naps, she gives kisses, then she plays again (with dogs 10x her size...she is CONFIDENT), and is extremely smart. Everyone loves her including Hazel and Suede. And the best part...SHE FOUND HER FOREVER HOME! She is heading out tomorrow!

Can you believe her incredible transformation!? ☐

Bringing in the heavyweights!

Please welcome Cedar, Bino, Noah, and Bella Boo. All pups are now in the step of the healing process where they are **ready to find homes!**

You can find their info [here](#).

BINO↑

Gentle, loyal, and so thankful to be loved

BELLA BOO↑

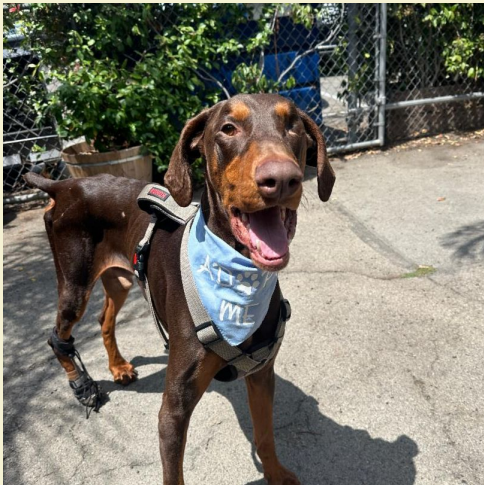

Sweetest girl you'll EVER meet
*just adopted this week!!!

NOAH↓

Silly Noah, everyone's best friend!

CEDAR↓

Loves long walks, cuddles, and tennis balls

Suede is still looking for his forever home!

[Meet Suede](#), At just 17 months young, this luscious albino Doberman named Suede is

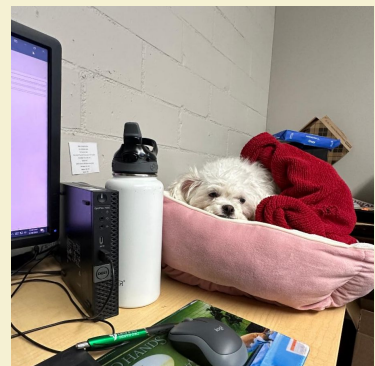

Tilly is still looking for her forever home!

[Meet Tilly](#) or as we call her Silly Tilly. She is so much fun and will make an excellent buddy. Originally from a shelter in Humboldt County, California, Tilly found her way to us with the help of a dedicated team of animal control workers who drove her 13 hours to LA to prevent her from being put down. As they had no room in their shelter she was slated for euthanasia because she has mild hip dysplasia!!! Crazy. Despite a slightly wonky gait, she's still active and loves exploring. She is absolutely GREAT with all dogs big or small and she and Suede can spend hours playing with each other. Tilly is a bit shy with strangers until she gets to know them and then she will climb into your lap and give kisses.

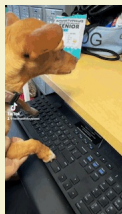

a true gem. His story started out rough when he was hit by a car but thankfully survived. The accident broke his foot which required multiple surgeries to correct, and daily physical rehabilitation to ensure that this young pup can grow into a healthy, able-bodied dog. Suede just had his last surgery and we are so pleased with his progress. Suede enjoys being a silly puppy. He is playful and goofy, for sure. He is really enjoying having a strong body as he grows so Suede has requested a family that is active and engaging. Because this young man has been in recovery during his puppy months, he is really excited to be involved with other dogs and people. He plays really nicely with every dog he meets (especially other puppies) and is respectful of older dogs who tell him they don't want to play. As all other puppies, he'll need some help with training and learning the routine of home-life, but he is well up for the challenge.

Don't forget [Nube](#)!

We first heard about Nube, (translated to Cloud in Spanish... perfect right?) when she was left at a vet hospital after becoming acutely paralyzed in her hind limbs. Nube, 4 years old, remains super joyful and loves every single person (and pup) she meets. Nube cannot walk, but she comes with a wheelchair and needs her bladder expressed but is very easy to do. She needs a home that champions her special needs. Her sweetness shines, she loves to be held and says she is hoping for a new family that will give her lots of love and kindness.
